

When the weather outside is frightful...

Winter weather is here! We know this season often brings snow and ice, which in turn makes it difficult and often unsafe to deliver and/or provide meals at the café site.

Please keep in mind the following closing procedures for the café sites in your area.

Wayne County

Centerville-Abington: If Centerville-Abington Schools are closed, the center is closed.

If schools are delayed, the center will open 1 hour late. Announcements will be made on [Kicks96](#) and Facebook. Call the center before venturing out.

Nettle Creek: If Nettle Creek Schools are closed, the center will be closed. Closures will be announced on [Kicks96](#) and local stations.

Richmond Senior Center: If Richmond City offices are closed, they are closed. Announcements will be made on local stations. Call the center before venturing out.

Western-Wayne: If the center believes weather conditions are unsafe for seniors, the site will close at their discretion.

Announcements will be made on [Kicks96](#), [WCTV](#), and Facebook.

Home Delivered Meals: Senior Centers will determine if meals should be delivered based on conditions in the area and will notify clients of delays or closures.

Winter Safety Tips

1. Listen to weather reports regularly and take note of bad weather on the horizon! Preparation is key.
2. Have a battery-powered radio and extra batteries so you can still listen to the weather news during a storm.
3. Stock up on fresh water and dried or canned food. For emergency food needs, contact your local food bank.
4. Have at least a seven-day supply of your medications with you. If you use oxygen, have an emergency supply to last three days or more.
5. Find out if your local pharmacy or grocery store makes deliveries. It's best to stay inside as much as possible when conditions are bad.
6. If you use a motorized wheelchair or scooter, think about getting a backup battery, or have a backup such as a cane or walker.
7. Set up a buddy system with a neighbor who will check in on you in case of a storm.
8. For all your medical equipment that requires a power source, check with your medical supply company about a backup power source.
9. Keep walkways & steps around your home clear of debris to help prevent slips & falls.
10. If you need to go outside, bundle up in layers of clothing, and wear a hat, scarf, and gloves. Wear shoes with proper tread to avoid slips.
